RESOURCES

50-State Teacher 1997 Salary Survey.

The first section focuses on state comparisons and analyzes salaries in relation to per-capita income, private sector earnings and the cost of living. The second section highlights **trends in national averages over the past 2 or 3 decades.** The third section looks at beginning teachers. **NOTE:** The latest report, *Survey & Analysis of Teacher Salary Trends 1998* is now available.

100 Largest Cities, 1997 Salary Survey.

Describes 1996-97 salaries in the school districts serving the nation's 100 largest cities. Analyses include rankings, regional listings, comparisons to state averages, adjustments for interarea cost-of-living differences, comparisons to metro-area per capita personal income, and comparisons to the average annual earnings of all workers in the metro area.
